## Prompts for panelists

- Discuss an event/experience you/your family/your community went through – what was its impact then and what is its impact now?
- Can you relate that experience/event specifically to the **health** of you/your family/your community?
- What health differences (historical or current) do you notice (or experience) within your community?

## Team Activities

- The health department does a lot of good in the communities we serve, but let's explore times when we could have done better or caused less harm. What could be done differently?
- What are some ways that the history we learned about today is connect to our day to day work?
- What do we need to do best support the health of our communities/clients we serve?
